making your trash problems smaller.

reduce costs

redirect labor

increase profits

increase operational  
efficiencies

reduce environmental  
impact

improve customer  
service

“ Labor savings is having the employees focus on the customer and/or producing the products for the customer, where we don't have to sit and babysit a garbage can. It totally frees [the employees] up to give the customer a better experience in the restaurant. ”

– Bruce C., Facilities Supervisor,  
McDonald's for over 30 Years

making your trash problems smaller.

## Immediate Impact to YOUR Bottom Line

- Increase automation → Reduce labor costs
- Reduce trash volume → Reduce hauling costs
- Redirect labor → Improve customer service
- Reduce number of trash bags → Increase savings

“Compaction Technologies does hit a lot of my departments that I oversee, and not only is it a more sustainable practice, it's also very cost efficient for us.”

- Steve H, Associate Vice Chancellor of Operations  
Top 10 College Dining Halls, Princeton Review, Niche

“The goal was to reduce the plastic bags [and] hours of service for staff to pull the garbage, which we have achieved. We have also achieved the look and feel of the garbage area — that is much cleaner and fresher. When you are going to eat food the last thing you want to see is overflowing garbage.”

- Nadeem S., Resident District Manager  
Top 10 College Dining Halls, Princeton Review, Niche

## Efficient: NEW and Improved Engineering

- Reduced maintenance costs
- Easy to clean and maintain
- Space efficiency: One ecotrash compactor equals two to three large trash receptacles
- Options to fit different needs (landfill, recycling, compost)

## Eco-Friendly: Reduce Environmental Impact

- Significantly fewer trash bags used
- Decreased volume of trash impacting landfills
- Reduced amount of fuel used for hauling
- Reduced emissions by garbage trucks

## Experience: Consumer Friendly Options for Improved Customer Experience

- Hands-free, motion-sensor activation
- Reduced noise levels
- Customizable finishes and branding
